No. 18.

*Fort William, Financial Department,**The 17th April 1857.*

*Notification.*—Read the following papers relative to the grant of special leave to Civil Servants for the period intervening between departure from Station to the commencement of reckoning authorized absence on sick leave, or between the end of reckoning absence on sick leave and re-arrival at Station :—

Clause 4 Section VI. of the Covenanted Civil Service Absentee Rules, dated 8th June 1855.

Financial Notification No. 25, dated 27th June 1856.

Section V. of the Uncovenanted Civil Service Absentee Rules, dated 22nd February 1856.

Financial Notification No. 36, dated 11th July 1856.

Letter from the Officiating Secretary to the Government, N. W. Provinces, No. 804, dated 11th March 1857.

*RESOLUTION.*—Clause 4 of Section VI. of the New Covenanted Civil Service Absentee Rules allows for the interval elapsing between departure from Station to the commencement of reckoning absence, or between the end of reckoning absence and re-arrival at Station of the grant of a special leave, for an additional period of one month, two months, or three months, according to the distance to be travelled, on half salary not exceeding 10,000 Rupees per annum.

It was found, however, that in cases of sick leave taken in India, the above provision was open to abuse, and it was accordingly notified, on the 27th June 1856, that the special leave in question should, from that date, be calculated at the rate of one day for every ten miles of the distance to be travelled, provided that the limit of *three* months was not exceeded, and that the whole time claimed was spent *bonâ fide* between the place of departure and the place of destination.

Alike provision was made on the 11th July 1856 for Uncovenanted Civil Servants proceeding to Europe on sick leave, with these alterations, *viz.* that the time allowed to them should be calculated at the rate of one day for every fifteen miles of the distance travelled, instead of one day for every *ten* miles as stated above ; and that the limit of *two* months should not be exceeded, instead of *three* months, as in the case of Covenanted Servants.

In reference to these Rules, it has been usual for Officers, to whom leave on Medical certificate has been granted, to submit separate applications for the special leave referred to.

The Hon'ble the Lieutenant-Governor, N. W. Provinces, however, considers that these separate applications are unnecessary, and suggests that the Civil Auditors be permitted to pass the allowances of Officers proceeding on an authorized leave to the Hills or to Sea for the period which may be occupied in travelling to and from the place of leave or port of embarkation, when satisfied that the conditions upon which such leave is permitted by the existing Orders of the Supreme Government have been duly fulfilled.

The Right Hon'ble the Governor General in Council sees no objection to the course suggested by His Honor in cases of sick leave granted to Covenanted Servants, and in cases of sick leave to Europe granted to Uncovenanted Servants. In cases of Furlough on private affairs, separate applications for leave for the purpose of travelling must still be submitted.

*ORDER.*—Ordered, that a copy of the foregoing Resolution be forwarded to the Departments,\* the Governments,† and the Officer‡ specified in the margin, for information and guidance.  
Ordered also, that the Resolution be published in the Calcutta Office§  
*Gazette* for general information.

## Abkarry Notification.

Notice is hereby given, that under the provisions of Act XXI. of 1856, and in modification of the Rules hitherto in force, the following Rules have been prescribed, with the sanction of Government, to take effect from this date, in regard to all distilleries constructed and worked according to the English method in the territories under the Government of the Lieutenant-Governor of Bengal:—

1st. Application for license must be made to the Collector of the District in which the distillery is situated, or, in case the distillery is within 20 miles of Calcutta, to the Collector of Calcutta.

2nd. Parties licensed to work distilleries shall deposit five thousand Rupees in cash or in Government Securities with the Collector, the whole of the amount, or such portion of it as the Government shall determine on the recommendation of the Board of Revenue, together with the distillery license, to be forfeited in the event of any breach of the Abkarry laws of the Bengal Presidency proved before the Officer vested by law with the decision of Abkarry suits. On the license ceasing without forfeiture, the sum deposited shall be returned by the Collector.

3rd. Not more than one cautionary deposit of five thousand Rupees in cash or Government Securities will be required on account of any number of distilleries that may be established by one and the same individual or firm.

4th. No distillery shall be licensed until the parties applying for license shall have satisfied the Collector that the distillery buildings and premises are so constructed and surrounded by a wall as to afford full security for the Government Revenue, and that the works are capable of producing not less than three hundred gallons of spirits per diem.

5th. Collectors are empowered to refuse licenses for distilleries without assigning any reason, except to the superior Revenue Authorities in the event of an appeal from their decision.

6th. Parties working licensed distilleries are required to apply to the Collector in December each year for the renewal of their licenses for the year following; and unrenewed licenses shall be considered null and void, and as not protecting the spirits produced in the distilleries from seizure and confiscation, or the parties working the distilleries from the penalties provided by law for the illicit manufacture of spirits.

7th. Parties licensed to work a distillery shall provide a suitable residence for the Abkarry Officers stationed on the premises, which residence shall be so situated as to command the ingress and egress to and from the premises.

8th. The Collector or Deputy Collector, and the Surveyor or other subordinate Officer appointed by him to the duty, shall at all times, by day and by night, have free ingress into every licensed

distillery, and into the godowns and other places appertaining thereto, for the purpose of making such experiments as may be necessary for estimating the amount of the duties, of inspecting and measuring all stills and other vessels used in manufacturing spirits, and gauging and proving spirits manufactured in the distillery.

9th. Parties licensed to work a distillery shall, within five days after receiving the license, furnish to the Collector a correct statement of the distillery premises, specifying every ware-house, godown and other place appertaining thereto to be used for carrying on the business of the distillery, and all stills, coppers, casks and other vessels to be so used. All such vessels shall be duly inspected, measured, and marked by the Abkaree Officer stationed at the distillery, or any other Officer appointed to the duty by the Collector, and no vessels shall be used in the distillery which are not so marked, and a statement of which has not been furnished to the Collector.

10th. Every wash still shall contain at least two hundred gallons, and every still for distilling low wines shall contain at least one hundred gallons.

11th. Parties licensed to work a distillery shall, five days before beginning to bring in materials for manufacturing spirits, give notice to the Collector of the day on which it is intended to commence distilling.

12th. Parties working licensed distilleries shall, five days before discontinuing distillation, give notice to the Collector of the day on which it is intended to discontinue working the stills. On the day appointed the still shall be sealed up by the Abkaree Officer stationed at the distillery, or any other Officer appointed to the duty by the Collector, and they shall remain sealed up until distillation is recommenced.

13th. It shall be the duty of the Abkaree Officer stationed at a licensed distillery to gauge and prove all spirits manufactured in the distillery, and to keep a regular account of all spirits conveyed from the distillery under pass or kept in the godowns, ware-houses, and other places where such spirits are usually deposited, exhibiting their quantity and strength.

14th. No spirits shall be conveyed from the godowns, ware-houses or other places used for keeping the produce of a licensed distillery, or from the distillery, except to such godowns, ware-houses and other places, without a pass issued by the Collector.

15th. No spirits shall be conveyed from a licensed distillery, unless the following marks are legibly pointed or cut on each end of the cask containing the spirits, viz., the name of the distillery and known mark of the proprietor, the

\* The strength of the spirits to be ascertained by Sykes's Hydrometer, the instrument used by the Excise in England. quantity of spirits contained in the cask, and the strength of the spirits, which shall not

be below London proof. For instance, the marks on a cask of Dhobah Rum will stand thus:—

\* Meaning 5 degrees over London proof.

16th. Spirits intended for consumption in Calcutta may be removed from licensed distilleries, without the previous payment of duty, under charge of Abkarry Officers, for the purpose of being stored in the Abkarry godown at the Calcutta Custom House. The Collector of Calcutta will recover the duty on spirits so removed and stored when passed out from the Custom House for local consumption. Rent will be charged at the rate of 6 pies per day for every cask of spirits allowed to remain in the godown for more than eight days.

17th. Spirits removed and stored, as provided in the preceding clause, will be permitted to pass out of the Custom House for exportation by Sea, on the proprietor depositing with the Collector of Calcutta, either in cash or Government Securities of sufficient value, the amount of duty on the spirits at the rate of one Rupee per imperial gallon imposed by Section VII. Act XXI. of 1856, and entering into an engagement to pay the duty in the event of the spirits not being exported. On proof of exportation, the Collector will cancel the engagement bond, and return the deposit.

18th. Parties working licensed distilleries will be allowed to remove spirits there manufactured, for exportation by Sea, without the previous payment of duty, after executing a bond to the Honorable East India Company, binding them to pay the duty of one rupee the imperial gallon for any portion of the spirits so bonded, which may not be exported by Sea as merchandise within four months from the date of the bond.

19th. A member of some established house of business at the port of exportation to be one of the parties bound, and the parties bound to be jointly and severally answerable for any amount which may ultimately fall due under the bond.

20th. The Collector may refuse the security tendered without assigning any reason, except to the superior Revenue authorities in the event of an appeal from his decision.

21st. The distillery and apparatus will be considered as pledged for any amount which may become due under the bond.

22nd. Bonds will not be received for a less quantity of spirits than one thousand imperial gallons, and no quantity less than one thousand gallons will be allowed to be removed from a distillery under bond.

23rd. On a bond being duly executed the Collector shall immediately forward a true copy of

the same to the Collector of Customs at the port of exportation, and shall grant a pass for the spirits bonded without payment of the duty.

24th. On the spirits being brought to the Custom House for exportation, the exporters shall declare in writing by what bond it is protected, and shall produce the pass of the Collector of Land Revenue and the distillery invoice. The spirits shall then be gauged for quantity, and proved to ascertain the strength by a Custom House Officer. If the quantity so ascertained be the same as that marked in the casks, (the casks being the same which were removed from the distillery) the spirits shall be allowed to pass for Sea Export, and the quantity shall be written off on the copy of the bond furnished to the Collector of Customs. If the quantity be not the same as that marked on the casks, duty shall be levied on the difference as provided by Section II Act XXI of 1856.

25th. When the entire bonded quantity is written off upon the copy of the bond, the Collector of Customs shall return the said copy of the bond to the Collector of Land Revenue from whom he received it, who shall, on receipt of the copy, cancel the original bond.

26th. It shall be the province of the exporters to see that the exports made from time to time under a bond are properly written off or certified on the copy of the bond which is in the possession of the Collector of Customs, and they shall testify that the exports are correctly so written off by their signatures to the entries.

27th. If at the expiration of four months from the date of a bond the entire quantity of spirits covered by the bond shall not have been exported and written off, as provided in the preceding clause, the Collector of Land Revenue, on the same being certified to him by the Collector of Customs, shall proceed to recover the duty under condition to be paid upon such quantity of spirits as may not have been exported under the bond, unless the currency of the bond shall have been renewed.

28th. Time expired bonds may be renewed at the discretion of the Collector of Land Revenue, with the sanction of the Commissioner, for a further period of four months from the date of the expiration of the first currency, and for no period more or less than that term. On the expiration of the second currency the Collector shall proceed to adjust such time-expired bonds, and levy duty on the quantity of spirits unexported or deficient.

29th. A maximum allowance, according to the following scale, will be made on account of ullage and leakage in spirits removed under their bond from distilleries in the Mofussil for exportation by Sea; for a distance not exceeding 100 miles, 5 per centum.

For a distance above 100 miles, but not exceeding 200 miles, 7½ per centum.

For all distances exceeding 200 miles, 10 per centum.

30th. Applications for licences to use Rum duty free in the manufacture of Sugar and Molasses must be made to the Collector of the District in which the Sugar factory for which the license is required is situated, or if within 20 miles of Calcutta, to the Collector of Calcutta.

31st. Parties licensed to use Rum duty free for the above purpose will be permitted to remove Rum under pass from licensed distilleries to their factories, on entering into a bond to pay duty at the rate of one Rupee per gallon on any portion of the Rum bonded which may not be used for the purpose specified, within six months from the date of the bond; and at the expiration of that period the Collector shall proceed to recover the duty on such portion of the Rum, unless the bond shall have been renewed.

32nd. The parties bound must be jointly and severally answerable for any amount which may ultimately fall due under the bond.

33rd. The currency of the bond may be renewed at the discretion of the Collector, with the sanction of the Commissioner, for a further term of six months. At the expiration of the second currency the Collector shall proceed to adjust the time-expired bond and levy the duty on the quantity of Rum deficient or unconsumed.

34th. An Establishment, consisting of a Darogah and two Chaprassées, will be maintained by Government at each Sugar factory, where permission may be given to use Rum duty free, and the

*Darogah	Rs. 24	cost of the same,

		gin,* to Company's
	Rs. 34 per month.	Rupees 34 per

month, must be borne by the factory and must be paid regularly to the Collector.

35th. No Extra Establishment will be required if the Sugar factory be attached to a licensed distillery and within the walls of the distillery premises.

36th. The Collector and the Surveyor, or other subordinate Officers appointed by him to the duty, shall have free ingress into the factory for the purpose of inspection of the premises, and over sight of the Excise establishment in the same way as if it were a distillery.

FORT WILLIAM, }  
The 7th April 1857. }

#### Notification.

THE Civil Auditor, North-Western Provinces, has the honor to repeat his annual call to all Disbursing Officers in charge of Civil Establishments in the North Western Provinces, for the submission (as soon after the 1st May next as practicable with the April abstract) of their regular Annual Detailed Statement, containing the names

and full particulars of the whole of the Office Establishment, and to observe that, with reference to the orders of Government dated 15th October 1842, published in the *Agra Government Gazette* of the 15th November 1842, the audit of their abstracts for April next will be withheld until the receipt of the required Return.

2nd. To facilitate check it is particularly requested that the abstract for April be subdivided into distinct headings, so that each description of office, with its total, shall correspond with the details given in the Statement of Establishment for the 1st May.

3rd. It is also requested that the three separate Lists prescribed for all Uncovenanted Servants, Europeans, East Indians, and Natives (in the last the names of only those holding appointments of trust and responsibility should be inserted) employed on their establishments, be furnished for 1st May 1857, without delay.

CIVIL AUDITOR'S OFFICE; }  
North Western Provinces, }  
Agra, the 16th March 1857. }

#### Notification.

*The 25th March 1857.*

With the sanction of the Governor General of India in Council, it is hereby declared that the Port of Rangoon, and the navigable River and Channels leading to that Port, are subject to Act No. XXII. of 1855.

The limits of the said Port of Rangoon are as follows:—

*To the West.*—A line drawn South from the boundary pillar at Kemmendine Point across the Rangoon River to the boundary pillar on the opposite bank.

*To the East.*—A line drawn from the point of land between the Pazoondoung Creek and the Pegu River to the boundary pillar at the point on the Dalla Shore called Dway-ngoo.

So much of the Pazoondoung Creek as lies South of a line drawn from a pillar at the East end of Kyeezeik village on the Eastern bank of the said Creek to a pillar opposite to it on the Western bank.

The limits of the said Port include to the North and South so much of the Rangoon River and of the shores thereof, and so much of the Pazoondoung Creek and the shores thereof as are within fifty yards of high-water mark spring tides.

The limits of the navigable River and Channels leading to the said Port, made subject to the said Act, are as follows:—

*To the North.*—The Port of Rangoon as above defined.

*To the South.*—A line drawn East and West from the Light Ship.

All parts of the Rangoon River between the said limits and below high water line at spring tides are subject to the said Act.

## PORT RULES.

With the sanction of the Governor General of India in Council, the following Port Rules have been made and are hereby promulgated for general information and guidance :—

I. No vessel, if above 200 tons, shall enter within the limits of the Port of Rangoon, or move from one place to another within the Port, between sun-set and sun-rise, without the special permission of the Master Attendant.

II. The Commanders of all vessels arriving at the Port of Rangoon are desired to enter correctly, in the columns of the Report Book of the Master Attendant, as soon as presented to them, the information therein required regarding their vessels. They will also report in writing to the Master Attendant, twenty-four hours before their departure, the particulars noted in the form appended hereto.

III. All Commanders of vessels arriving at Rangoon shall anchor in such a position as the Master Attendant or his Assistant shall direct. All vessels above 100 tons burthen shall moor with two bower anchors and 30 fathoms of a Cable each way ; and shall not move from their position without a Pilot, except with the express permission of the same authority.

IV. All Commanders of vessels shall have their jib and driver-booms rigged in when required by the Master Attendant, and shall strike their yards and masts if required to do so by, or by order of the same Officer.

V. Every ship or vessel within the Port of Rangoon shall remove any anchor or spar or other substance projecting from her side when required to do so by the Master Attendant, or other Officer of the Port.

VI. The Commanders of all vessels entering the Port of Rangoon with ballast on board shall, without delay, send to the Master Attendant a report in writing, stating the description of ballast on board, the quantity in tons, and the Port of shipment. Application must be made by the Commander to the Master Attendant for permission to tranship or land ballast, and no ballast shall be transhipped or landed except under the sanction of the Master Attendant, and only at such Stations as he shall direct.

VII. A free channel of 240 yards width is to be kept for ships moving up or down the River within the Port, and also free passages to Piers, Jetties, Landing-places, Wharves, Quays, Docks, and Moorings ; and all vessels shall be bound to move when required to clear such channels or passages.

VIII. All vessels within the Port of Rangoon shall be moored or warped from place to place as required by the Master Attendant, or other Officer of the Port, and no vessel shall cast off a warp that has been made fast to her, to assist a vessel in mooring, without being required so to do by the Pilot or Officer in charge of the vessel mooring.

IX. No vessel within the limits of the Port of Rangoon shall boil any Pitch or Dammer on board,

or shall draw off spirits by candle or other artificial lights.

X. All vessels within the limits of the channels leading to the Port of Rangoon shall, when at anchor, between sun-set and sun-rise, have a good light hoisted at the star-board fore-yard arm, and all vessels under weigh at night shall show a good light at the fore-royal or upper fore-mast head, and when under weigh in tow of a Steamer shall, in addition to the mast-head light, show a good light at each fore-yard arm ; the Steamer showing the usual light prescribed by the Admiralty Regulations.

The 25th March 1857.

With the sanction of the Governor General of India in Council, it is hereby declared that the Port of Rangoon, and the navigable River and Channels leading to that Port, are subject to Act No. XXII. of 1855.

The limits of the said Port of Rangoon are as follows :—

To the West.—A line drawn South from the boundary pillar at Kemmendine Point across the Rangoon River to the boundary pillar on the opposite bank.

To the East.—A line drawn from the point of land between the Pazoondoung Creek and the Pegu River to the boundary pillar at the point on the Dalla Shore called Dway-ngoo.

So much of the Pazoondoung Creek as lies South of a line drawn from a pillar at the East end of Kyeezeik village on the Eastern bank of the said Creek to a pillar opposite to it on the Western bank.

The limits of the said Port include to the North and South so much of the Rangoon River and of the shores thereof, and so much of the Pazoondoung Creek and the shores thereof as are within fifty yards of high-water mark spring tides.

The limits of the navigable River and Channels leading to the said Port, made subject to the said Act, are as follows :—

To the North.—The Port of Rangoon as above defined.

To the South.—A line drawn East and West from the Light Ship.

All parts of the Rangoon River between the said limits and below high water line at spring tides are subject to the said Act.

PORT RULES.

With the sanction of the Governor General of India in Council, the following Port Rules have been made and are hereby promulgated for general information and guidance :—

I. No vessel, if above 200 tons, shall enter within the limits of the Port of Rangoon, or move from one place to another within the Port, between sun-set and sun-rise, without the special permission of the Master Attendant.

II. The Commanders of all vessels arriving at the Port of Rangoon are desired to enter correctly

in the columns of the Report Book of the Master Attendant, as soon as presented to them, the information therein required regarding their vessels. They will also report in writing to the Master Attendant, twenty-four hours before their departure, the particulars noted in the form appended hereto.

III. All Commanders of vessels arriving at Rangoon shall anchor in such a position as the Master Attendant or his Assistant shall direct. All vessels above 100 tons burthen shall moor with two bower anchors and 30 fathoms of a Cable each way; and shall not move from their position without a Pilot, except with the express permission of the same authority.

IV. All Commanders of vessels shall have their jib and driver-booms rigged in when required by the Master Attendant, and shall strike their yards and masts if required to do so by, or by order of the same Officer.

V. Every ship or vessel within the Port of Rangoon shall remove any anchor or spar or other substance projecting from her side when required to do so by the Master Attendant, or other Officer of the Port.

VI. The Commanders of all vessels entering the Port of Rangoon with ballast on board shall, without delay, send to the Master Attendant a report in writing, stating the description of ballast on board, the quantity in tons, and the Port of shipment. Application must be made by the Commander to the Master Attendant for permission to tranship or land ballast, and no ballast shall be transhipped or landed except under the sanction of the Master Attendant, and only at such Stations as he shall direct.

VII. A free channel of 240 yards width is to be kept for ships moving up or down the River within the Port, and also free passages to Piers, Jetties, Landing-places, Wharves, Quays, Docks, and Moorings; and all vessels shall be bound to move when required to clear such channels or passages.

VIII. All vessels within the Port of Rangoon shall be moored or warped from place to place as required by the Master Attendant, or other Officer of the Port, and no vessel shall cast off a warp that has been made fast to her, to assist a vessel in mooring, without being required so to do by the Pilot or Officer in charge of the vessel mooring.

IX. No vessel within the limits of the Port of Rangoon shall boil any Pitch or Dammer on board, or shall draw off spirits by candle or other artificial lights.

X. All vessels within the limits of the channels leading to the Port of Rangoon shall, when at anchor, between sun-set and sun-rise, have a good light hoisted at the star-board fore-yard arm, and all vessels under weigh at night shall show a good light at the fore-royal or upper fore-mast head, and when under weigh in tow of a Steamer shall, in addition to the mast-head light, show a good

light at each fore-yard arm; the Steamer showing the usual light prescribed by the Admiralty Regulations.

No. 590 of 1857.—The Right Hon'ble the Governor General of India in Council is pleased to direct that the following Notification, from the Foreign Department, be published in General Orders :—

No. 107, dated 22nd April 1857.—It is with great satisfaction that the Governor General in Council directs the publication of the accompanying Despatches received from the Seat of War in Persia. They describe fully the operations of the British Sea and Land Forces in the attack and capture of Mohumera on the 26th of March, the flight of the Persian Army thirteen thousand strong, and the complete success of the British Arms at every point.

The scheme of the attack was chosen by Lieutenant-General Sir James Outram with excellent judgment; it was carried through with steady precision; and it has led to the accomplishment of the object in view at a small cost of life. The Governor General in Council desires to offer to Lieutenant-General Sir James Outram his best congratulations and thanks for this happy result.

The engagement was on the side of the British Arms a Naval one,—no Land Force, with the exception of one Mortar Battery, having taken an active share in it. The manner in which the task was performed is most honorable to the Indian Navy.

That the Officers, Seamen, Artillerymen, Marines, and others of the Squadron did their duty with intrepidity and ardor, is the smallest part of the praise which is owing to them. The plan of the Naval attack, which was to be carried out in shoal and narrow waters, and in a rapid current, by Steamers of heavy draught, some of them encumbered with Vessels in tow, and the thoroughly successful execution of every part of it, without miscarriage or confusion of any kind, in the face of strong defensive works at point blank range, have given proof of a cool judgment, a well-ordered discipline, and a skilful management, of which Commodore Young and the Officers and men under his Command may well be proud.

The cordial thanks of the Government of India are eminently due to Commodore Young and to those who shared that day's work with him; and the Governor General in Council will have pleasure in expressing to the Hon'ble Court of Directors his hearty approbation of the conduct of all concerned. It will be his agreeable duty to bring to the especial notice of Her Majesty's Government and of the Hon'ble Court of Directors the meritorious services of those whom Commodore Young has named in his Despatches of the 27th of March.

The disembarkation of the Troops above the Forts took place under the able direction of Brigadier General Havelock, C. B., rapidly and in good order; but before the landing was effected, success was already complete. The whole Persian Army was in full retreat, leaving in our hands seventeen pieces of Ordnance, their Tents, Baggage, Stores of all kinds, and large Magazines of ammunition and provisions. An accurate Return of Casualties has not yet been received. These were confined to the Squadron, and it is believed that the number does not exceed six killed and thirty wounded. It is estimated that the Enemy lost two hundred killed.

For the judicious arrangements by which the Troops were held in readiness, and their landing facilitated, the thanks of the Government of India are due to the Officers of the General Staff, and

to the other Staff and Regimental Officers indicated in Lieutenant-General Sir James Outram's Despatch. The Governor General in Council will not fail to call the attention of Her Majesty's Government and of the Hon'ble Court of Directors to the zeal and exertions of these Officers, as also to the assistance rendered to Lieutenant-General Sir James Outram by the Officers and others serving on his Staff.

The Governor General in Council cannot close this notice of the operations at Mohumera without tendering his thanks to the Commanders and Crews of the Transports engaged on this occasion. The alacrity with which a dangerous service, far beyond their strict obligations, was undertaken, and the courage and skill with which it was performed, entitle the Officers and men of those Vessels to the best acknowledgments of the Government of India.

By Order of the Right Hon'ble the Governor General in Council.

TO

HIS EXCELLENCY LIEUT. GENERAL

SIR H. SOMERSET, K. C. B. AND K. H.,  
*Commander-in-Chief, Bombay.*  
*Camp near Mohumra,*  
*27th March 1857.*

SIR,

I have the honor to report, for your Excellency's information, the successful results of the operations against Mohumra. The Persian Army evacuated their entrenched position and camp yesterday about mid-day, leaving behind all their tents standing, with nearly the whole of their property,—public and private,—all their ammunition, and seventeen guns. As far as I am able to learn, only five\* guns and a portion of the personal effects of the Shahzada have been carried away.

2. It was my intention to have proceeded against this place immediately upon my return from the Borazjoon Expedition last month; but, owing to the non-arrival of the requisite reinforcements, caused by the tempestuous weather in the Gulf, together with unforeseen causes of delay, I was not able to leave Bushire until the 18th Instant. In the mean time, however, I had despatched the Transports into the Shat-ool-Arab from Bushire, as the Troops were embarked, so that upon my arrival\* in the Steamer *Feroze*, no further delay occurred beyond what was necessarily caused by the tides and by towing so many large vessels up the river.

3. For some months past, the Persians had been strengthening their position at Mohumra; batteries had been erected of great strength of solid earth, 20 feet thick and 18 feet high, with casemated embrasures, on the Northern and Southern

\* The remainder supposed to have been thrown in the river.

points of the banks of the Karoon and Shat-ool-Arab where the two rivers join. These, with other earth-works armed with heavy ordnance, commanded the entire passage of the latter river, and were so skilfully and judiciously placed, and so scientifically formed, as to sweep the whole stream to the extent of the range of the guns up and down the river, and across to the opposite shore. Indeed everything that science could suggest, and labor accomplish in the time, appear to have been done by the Enemy to effectually prevent any vessel passing up the river above their position. The banks for many miles were covered by dense date-groves, affording the most perfect cover for rifle-men, and the opposite shore being neutral territory (Turkish), was not available for the erection of counter-batteries.

4. The accompanying rough Sketch will, I fear, give your Excellency but a faint idea of the great strength of the Persian position and the difficulty of successfully attacking them in it without very considerable loss. I could have landed my Troops on the Island of Abadan, which was strongly occupied by the Persians; and there is no doubt that, after defeating them, the Southern Battery eventually would have fallen to us; but the several batteries in the Northern bank of the Karoon commanded the entire Southern bank, as well as the stream of the Shat-ool-Arab, and it would have been a serious and an extremely difficult operation to have crossed the rapid current of the Karoon in the face of the Enemy, had the means existed of doing so; but until our small steamers and boats could round the Southern point and join us we should have been helpless.

5. After mature deliberation, I resolved to attack the Enemy's batteries with the armed steamers and sloops of war, and, as soon as the fire was nearly silenced, to pass up rapidly with the Troops in small steamers towing boats, land the force two miles above the Northern point, and immediately advance upon and attack the entrenched camp.

6. I have now the very great satisfaction of announcing to your Excellency the complete success of the first two operations; the third, to the regret of the Army, being frustrated by the precipitate flight of the Enemy.

7. The Persian Army, ascertained from credible re-

two sloops of war to effect my landing. I felt confident of success, although I anticipated some

port to amount to 13,000\* men of all arms, with 30 guns, was commanded by the Shahzada Prince Khau-ler Meerza in person. The British Force under my Command, composed as follows,† was the utmost I deemed it prudent to withdraw from Bushire; but with the aid of four armed steamers and

loss, from what I learnt of the determination expressed by the Enemy to oppose our further advance to the utmost of their power, and their extreme confidence of succeeding, as evinced by the fact of their having sent away their baggage cattle.

8. On the 24th Instant, the steamers, with transport ships in tow, moved up the river to within 3 miles of the Southern Battery, opposite the Arab village of Hurteh; but as some of the large ships shoaled on the way and did not reach the rendezvous until after dark, I was obliged to defer the attack for another day. During the night a reconnaissance was made in a boat to ascertain the nature of the soil of an Island West of, and immediately opposite, the Northern Battery, where I wished to erect a Mortar Battery; but as it was found to be deep mud, I determined to place the mortars upon a raft. This was constructed the following day, under the superintendence of Captain Rennie, I. N., and being armed with two 8-inch and two 5½-inch mortars, with a party of Artillery under Captain Worgan, was towed by the Steamer *Comet*, and moored in position close to the Island during the night unobserved by the Enemy, who, from our preparations at the rendezvous, and their confidence as to the impossibility of any vessel being able to pass above their batteries, apparently expected that we should land on the Southern Island (Abadan). The horses and guns of the Artillery, a portion of the Cavalry, and the Infantry, were transhipped into boats and small steamers during the day, in readiness for landing the following morning.

9. At break of day on the 26th, the mortars opened their fire upon both the Northern and Southern Batteries. The range of the 5½-inch proved too short, but the 8-inch shells were very efficient, bursting immediately over and inside the Enemy's works; whilst from the position of the raft, but few of the Persian guns could be brought to bear upon the mortars.

At 7 o'clock the several vessels of war moved up into the positions allotted them by Commodore Young, and by 9 o'clock the fire of the heavy batteries was so reduced, that the small steamers, with boats in tow, and one large steamer, the *Pottinger*, towing the Transport *Golden Era*, were able to pass up and land the Troops above the Northern Battery, without a single casualty amongst the Troops, although they had to run the gauntlet of both gun and musket fire. Two or three native followers only were killed in consequence of their unnecessarily exposing themselves.

10. By half-past one o'clock the Troops were landed and formed, and advanced without delay through the date-groves and across the plain upon the entrenched camp of the Enemy, who, without waiting for our approach, fled precipitately, after exploding their largest magazine, leaving, as I have before stated, their tents and baggage, public and private stores, with several magazines of ammunition and sixteen guns behind. The want of Cavalry prevented my pursuing them as I could have wished; but I despatched a party of Scinde Irregular Horse, under Captain Malcolm Green, to follow them up for some distance. This Officer reported that he came upon their rear-guard retiring in good order; but that the road in many places was strewed with property and equipments. The loss of the Persians has been estimated at 200 killed, among whom was an Officer

of rank and estimation. Brigadier Agha Jan Khan, who fell in the Northern Battery.

11. I beg to annex a Report received from Commodore Young, with copy of a letter I had previously caused to be addressed to that Officer, expressing my entire satisfaction with the Naval operations. Indeed, it was impossible for my instructions to have been more ably, or more successfully, carried out; and the Commodore and every Officer and man under his Command have nobly earned my warmest thanks. From Commodore Young, ably seconded by Captain Rennie and the other Officers of the fleet, and Masters of transports, I have throughout received every possible assistance.

12. With exception of the Artillery, with the Mortar Battery under Captain Worgan, no portion of the Military Force was actively engaged with the Enemy, beyond some European rifle-men sent on board the war vessels; but I am not the less indebted to all for their exertions and zeal, and especially for the great order and despatch with which the landing of the Troops was effected under Brigadier General Havelock, C. B., the highest spirit prevailed; and had the large Persian Army only waited our approach out of the range of the ships' guns, I feel confident that it would have received a lasting lesson.

13. From recent information I learn that the Persian Force, in a very disorganized state, is still in full retreat, and I propose to despatch immediately, up the "Karooon," to Ahwaz, three small armed steamers, with 100 European Infantry in each, for the purpose of making a reconnoissance, and, if practicable, effecting the destruction of the magazines at that place.

14. I take this opportunity of recommending to your Excellency's notice Colonel Lugard, C. B., the Chief and the several Officers of my general and personal Staff, the Brigadier General, the Brigadiers and their respective Staff, as also the Officers Commanding the several Regiments, Batteries, and Detachments of Cavalry, and Heads of Departments composing this Force, upon whom much responsibility has devolved, and whose zeal and exertions throughout this Expedition have been most praiseworthy.

15. To Captain Kemball, Bombay Artillery, Consul General at Bagdad, I am much indebted for his very valuable assistance, also to Major Taylor, as well as to Lords Dunkellin, Seymour, and Schomberg Kerr, who volunteered their services on my Staff.

I have, &c.,

SIR,

I have the honor to report for the information of the Lieutenant-General Commanding, that large quantities of flour, grain, dates, chopped straw, &c., were found in the camps abandoned by the Enemy on the 26th Instant, which were distributed to the Troops and followers on the spot. No account of these articles could be taken, as none of the Commissariat Establishment had then been landed, but they have been nevertheless made available for the Public Service by their issue, diminishing the demand on the Commissariat Stock.

Very extensive magazines of flour, wheat, and barley, belonging to the Enemy, have been found in the town of Mohumra, over which guards have been placed in the meantime, and an accurate report of the contents shall be furnished as soon as it is found possible to weigh the same.

I have, &c.,

SIR,

I am instructed by Lieutenant-General Sir James Outram, K. C. B., Commanding the Expeditionary Force, to express to you in warm terms his appreciation of the great services rendered by the Indian Navy yesterday in reducing the strong batteries which the Enemy had erected on the left bank of the Euphrates to defend their position at Mohumra—a service so ably planned and conducted by yourself, and so gallantly and effectually performed by the armed steamers and sloops of war, *Feroze*, *Assaye*, *Semiramis*, *Ajdaha*, *Victoria*, *Clive*, and *Falkland*, with their brave crews, commanded by Captains Rennie, Selby, Grieve, Manners, Adams, and Lieutenants Tronson and Worseley, that nothing was left for the Army to do, after being conducted by the Navy, past the silenced batteries, than to land and take possession of the Enemy's entrenched camp, which they had abandoned so precipitately as to leave behind all their tents and property, public and private, with a vast amount of ordnance stores and 16 guns, having carried away only a small portion of the personal effects of the Shahzada and five guns.

The Lieutenant-General tenders to you, your Officers and Crews, his best thanks for your services, and his hearty congratulations upon the successful issue of the undertaking. He further begs you will thank Lieutenant Chitty and Mr. Holland for the important services they rendered

in the *Berenice* and *Comet*, and also the Masters Commanding the several steamers and transport ships for their zealous assistance throughout the Expedition.

SIR,

In continuation of my letter No. 5 of the 25th Instant, I have the honor to inform you that, having observed the mortars placed on the raft constructed under the superintendence of Commander Rennie of the *Feroze*, and anchored on the evening of the 25th Instant in the channel to the Westward of the Dubbee Island, had opened fire, the Indian Naval Squadron under my Command got underweigh and ran up river until opposite the Forts defending the channel leading to Mohumra in the following order:—the *Semiramis*, with *Clive* in tow, followed by the *Ajdaha*, proceeded up Western channel to support the Mortar Battery; the *Feroze*, *Assaye*, and *Victoria*, the latter, with *Falkland* in tow, remaining in reserve until the fire of the Forts was deranged.

This was soon accomplished, on which the vessels in reserve entered the Eastern channel, the *Feroze* opening fire on the South Fort at less than point blank range, as she passed to take up her position against the North Fort and sufficiently in advance to receive support from the *Assaye*

immediately in stern of her. The division of the ships in the Western channel was then recalled and joined in close attack; the *Semiramis* and *Victoria*, the latter with *Falkland* in tow, engaging the South Fort as well as the inland one on the North side. Besides the fire maintained on the Forts, frequent discharges of shell and grape were made in the direction where it was supposed the Enemy's entrenched camp was situated.

So effective was the fire from the ships, that in less than three-quarters of an hour from its commencement, the batteries were only able to reply from three or four guns. At this period (7h. 45m. A. M.) of the engagement, the *Feroze* flying my pendant hoisted the rendezvous flag at the mast-head, which was repeated by the other vessels engaged, the pre-concerted signal for the troop ships to advance.

This movement on the part of the vessels in question not being made with such celerity as could be desired, Commander Rennie, of the *Feroze*, volunteered to proceed through the fire to accelerate that advance, which was accomplished in admirable order, although at the time the fire from the batteries was far from being silenced.

From between 9 and 10 o'clock five heavy explosions in different parts of the fortifications indicated the overwhelming nature of the attack, and led me to suppose that the resistance hitherto afforded could not much longer continue. I was, therefore, anxious to have the Troops landed as expeditiously as a due regard to their security would allow, so as a combined and simultaneous movement by the Naval and Military Forces might be made with the certainty of a successful issue, and with this view, passed up river, until close to Jaber's Fort, where the disembarkation was effected easily and without interruption.

After the batteries had ceased firing artillery, a fire of musketry was opened from them, as well as from breast-works in their vicinity, and maintained with great spirit for some time, when storming parties were landed from the *Semiramis*, *Clive*, *Victoria*, and *Falkland*, who drove before them the last of the Enemy, and took possession of their works and guns.

Considering the strength of the fortifications, both as regards position and construction, with a numerous garrison and the large number of guns which could be brought to bear on the ships, in consequence of their closeness to the Enemy's defences, which were likewise strengthened by breast-works, occupied by large bodies of small arm men, whose fire at times was annoying, I am thankful to say the casualties sustained by the Squadron during the engagement amounted only to five killed and eighteen wounded.

Before concluding, I feel it to be the most pleasant part of my duty to bring to your notice the great gallantry and coolness displayed by every Officer and Seaman under my Command, during the operations so successfully carried out.

The important services rendered by Commander Rennie, of the *Feroze*, are a further and honorable addition to an already well-established reputation.

Commander Selby, to whose local knowledge I am much indebted, elicited my warmest admiration by the dashing manner in which he carried the *Semiramis* into the channel, leading to Mohumra between the Forts on either bank.

By the excellent way in which Commander Grieve of the *Clive*, Acting Commander Man-

ners of the *Victoria*, and Lieutenants Commanding Tronson of the *Falkland*, and Worsley of the *Ajdaha*, handled their respective ships, and to the closeness and precision of their fire, much of the success of the day is to be attributed. Special commendation is due to Commander Adams, of the *Assaye*, for the gallant and most efficient manner in which he seconded my attack on the Northern Forts. The conduct of Lieutenant Chitty, of the *Berenice*, also calls for my approval for conducting his vessel under shelter of the ships of war, past the batteries with about fourteen hundred troops and followers on board.

Commander Nisbett, Agent for Transports, by the assiduity with which he had my arrangements carried into effect, was of material assistance.

To Acting Masters Commanding McLaurin of the *Napier*, Holland of the *Comet*, Fletcher of the *Planet*, Neale of the *Assyria*, Davies of the *Ethersey* Flat, and Mr Dark of the *Hugh Lindsay*, my warmest acknowledgements are due for the zeal and intelligence with which they acted on this occasion, and by all of whom my instructions were ably carried out.

The peculiar nature of the services required to be performed rendered unavoidable the exposure of the steam transports to the effects of musketry fire. The able manner, however, in which the Officers in Command of these vessels brought them through the ordeal with all but immunity, was highly creditable and praiseworthy.

To the Commanders of the transports generally too much praise cannot be accorded for the willing assistance they rendered throughout the day, both personally, and with earnestness of the means at their disposal, for the furtherance of the Public Service.

Finally, allow me personally to acknowledge the many obligations I owe you for the great assistance you afforded me in maturing and facilitating measures that appeared likely to conduce to the success of the enterprise. My thanks are also due to your Staff for the completeness with which every arrangement was made for the immediate landing of the Troops in a state fit for active service.

I feel confident that, although the victory is a Naval one, it would not have been so complete, but for the sight of the imposing Force with which the Enemy felt he must soon come in hopeless contact, unless he made an immediate retreat.

I have, &c.,

P. S.—The many matters of detail to be attended to at a period of such hurry, has placed it out of my power to obtain an authenticated list of the casualties sustained during the action. You will, however, observe that, according to the numbers already given, they have been comparatively few. This is in a great measure to be attributed to the very efficient protection afforded the crews by a breast-work made of trusses of pressed hay, which were placed on the bulwarks round the several vessels; neither have I an account of the damages inflicted on the ships by the Enemy's fire. They have, however, been considerably cut up in the rigging and injured in the hull, although rarely, if at all, under the water line.

I had almost forgotten to mention the services of Mr. Sweeney, my Flag Lieutenant, who, besides

buoying off the Channel across the bar of the river, was invaluable to me in communicating orders to the ships of war and transports. His coolness during the action, when performing his office of Flag Lieutenant, was conspicuous.

Mr. Rogers, my Secretary, likewise deserves being brought to notice for his services on the occasion, which were such as to meet with my warm approval.

*Dated H. C. S. F. Feroze, off Mohumra,*  
*27th March 1857.*

SIR,

With reference to the letter which I did myself the honor to address to you on the 18th Instant, intimating that, consequent on the Lieutenant-General Commanding the Persian Expeditionary Force having embarked on board of the *Feroze*, it was my intention to leave Bushire on the morning of the 19th, for the purpose of proceeding to the attack of Mohumra. It has now become my agreeable duty to inform you that, after a severe bombardment from the Squadron, the Forts defending the Town were captured, and their Artillery secured by the Force at my disposal yesterday.

In continuation of my letter already referred to, I will proceed to narrate the events as they occurred, from the 18th Instant up to the date on which the place fell.

Having left Bushire, as intimated, in the *Semiramis*, with the Persian Gulf Squadron under my Command, Mohumra, the rendezvous appointed, was reached on the evening of the 21st March. The 22nd and 23rd were occupied, before making a further advance, in the arrangement of details of attack. On the morning of the 24th, the fleet of ships of war and transports again got under weigh, and ran up river as far as the village of Hurteh, about four miles below Mohumra, where it was again brought to anchor, to allow the Engineer Officers of the Force to erect a Mortar Battery for opening the attack on the morning of the 25th, if a suitable site could be found on Dubbee Island. A survey of the whole Island having been made during the night of the 24th and 25th, under the guidance of Commander Selby and Mr. Holland, both of the *Comet*, and each possessed of much local experience, the idea of opening the bombardment from a land Mortar Battery had to be given up in consequence of the extremely marshy nature of the land and its slight elevation above the surface of the river. Commander Rennie, however, with his usual fertility of resource under such circumstances, employed himself next day in superintending the construction of a mortar raft, to be moored in the Channel to the Westward of the Dubbees, and succeeded so well in his endeavours, that it was completed and placed in position late on the night of the 25th, without attracting the Enemy's attention.

By arrangement, the mortars were to open on the Forts defending the Channel of approach to the Town at dawn, and so soon as this took place, the Squadron was to move upwards in support, the ships taking up their positions in the following order:—The *Semiramis*, with the *Olive* in tow, followed by the *Ajdaha*, entered the Western Channel in support of the Mortar Battery; the *Feroze*, *Assaye* and *Victoria*, the latter with the *Falkland* in tow, remaining in reserve until the

fire of the Forts was deranged. This was soon accomplished, on which the vessels in reserve entered the Eastern Channel, the *Feroze* opening her fire on the Southern Fort at less than point blank range, as she passed to take up her position against the North Fort and sufficiently in advance to receive support from the *Assaye*, immediately astern of her. The division of ships in the Western Channel was then recalled and joined in close attack,—the *Semiramis* and *Victoria*, the latter with the *Falkland* in tow, engaging the South Fort, as well as the inland one on the North side. Besides the fire maintained on the Forts, frequent discharges of shell and grape were made in the direction where it was supposed the Enemy's entrenched camp was situated.

So effective was the fire from the ships, that in less than three-quarters of an hour from its commencement, the batteries were only able to reply from three or four guns.

At this period (7h. 45m. A. M.) of the engagement, the *Feroze*, flying my pendant, hoisted the rendezvous flag at her mast-head, which was repeated by the other vessels engaged, being the preconcerted signal for the troop ships to advance. This movement on the part of the vessels in question not being made with such celerity as could be desired, Commander Rennie, of the *Feroze*, volunteered to proceed through the fire to accelerate their advance, which was accomplished in admirable order, although at the time the fire from the batteries was far from being silenced.

After the batteries had ceased firing Artillery, a fire from Musketry was opened from them, as well as from breast-works in their vicinity, and maintained with great spirit for some time, when storming parties were landed from the *Semiramis*, *Clive*, *Victoria*, and *Falkland*, who drove before them the last of the Enemy and took possession of their works and guns.

Considering the strength of the fortifications, both as regards position and construction, with the numerous garrison and large number of guns which could be brought to bear on the ships in consequence of their closeness to the Enemy's defences, which were likewise strengthened by breast-works, occupied by large bodies of small arm men, whose fire at times was annoying, I am thankful to say the casualties sustained by the Squadron during the engagement, so far as I have yet ascertained, amount only to five killed and eighteen wounded.

According to these numbers, they have comparatively few. This is in a great measure to be attributed to the very efficient protection afforded the crews by a breast-work of trusses of pressed hay, which were placed round the several vessels. Hitherto the many matters of detail to be attended to at a time of great hurry has placed it out of my power to obtain authenticated lists of our actual

loss; neither have I an account of the damages inflicted on the shipping by the Enemy's fire. They have, however, been considerably cut up in their rigging and injured in the hull, although rarely, if at all, under the water line.

Before concluding, I feel it to be the most pleasant part of my duty to bring to your notice the great gallantry and coolness displayed by every Officer and Seaman under my Command during the whole of the operations so successfully carried out. Lieutenant Sweney, my Flag Lieutenant, besides buoying off the Channel across the bar of the river, was invaluable in communicating my orders to the different ships of war and transports,—a duty which in action required more than usual exposure, and rendered his coolness conspicuous. Mr. Rogers, Clerk in charge of the *Comet*, who has been doing duty as my Secretary, deserves being brought to notice, for his services on this occasion were such as to meet with my warm approval.

To Acting Masters Commanding McLaurin, of the *Napier*, Holland, of the *Comet*, Fletcher, of the *Planet*, Neale, of the *Assyria*, Davis, of the *Ethersey* Flat, and Mr. Dark, of the *High Lindsay*, my warmest acknowledgements are due for the zeal and intelligence with which they acted on this occasion, and by all of whom my instructions were ably carried out. SIR,

I am instructed by Lieutenant-General Sir James Outman, K. C. B., Commanding the Expeditionary Force, to express to you in warm terms the appreciation of the great service rendered by the Indian Navy yesterday in reducing the strong batteries which the Enemy had erected on the left bank of the Euphrates to defend their position at Mohumra, a service so ably planned and conducted by you, and so gallantly and effectually performed by the armed steamers and sloops of war, *Feroze, Semiramis, Assaye, Ajdaha, Victoria, Clive, and Falkland*, with their brave crews Commanded by Captains Rennie, Selby, Grieve, Mannes, and Adams, and Lieutenants Tronson and Worseley, that nothing was left for the Army to do after being conducted by the Navy, past the silenced batteries, than to land and take possession of the Enemy's entrenched camp, which had been abandoned by them so precipitately as to leave all their tents and property, public and private, with a vast amount of ordnance stores, and (14) fourteen guns—a small portion only of the personal effects of the Shahzada and five guns having been carried away.

2. The Lieutenant-General tenders to you, your Officers and Crews, his best thanks for your services, and his hearty congratulations upon the successful issues of the undertaking. He further begs you will thank Lieutenant Chitty and Mr. Holland for the important services they rendered in the *Berenice* and *Comet*, and also the Masters Commanding the several steamers and transport ships for their zealous assistance throughout the Expedition.

I have the honor to be, &c.,
